Non-Consent Items:

The Department of Education requires the use of observer identification at the elementary and secondary school level as a last resort, if ethnicity and race data are not self-identified by the parent/guardian or student. In alignment with the Department of Education, OSSE is requiring school level observer identification when the parent/guardian or student does not provide values for ethnicity and/or race. If this indicator was unreported in corresponding LEA documentation (e.g. enrollment forms) and therefore is not self-identified by the parent/guardian or student, the LEA has observed and reported the following indicators for federal reporting purposes:	
<input type="checkbox"/> Student Race	<input type="checkbox"/> Student Ethnicity
